STEPS

First follow the directions on the jar to infuse the brew.

Then pour a shot into a glass and add citrus - a dash or two.

Lemonade, limeade or orange juice will do.

And watch as before *your eyes* it transforms into a magically purple brew.

INCANTATION

Raise *your glass* high and say these words true:

“Here’s to me and here’s to you!

May joy find us in whatever we do!”

Cheers!
